October 4, 2006

Alan Goo  
Director of Public Works  
Department of the Army  
Headquarters, United States Army Garrison Hawai'i  
 Schofield Barracks, Hawai'i 96857-5000

LOG NO: 2006.3407  
DOC NO: 0610AJ02  
Archaeology

Dear Mr. Goo:

**SUBJECT: National Historic Preservation Act (NHPA) Section 106 Review –  
Continued Stryker Brigade Combat Team Programmatic Agreement Battle Area  
Complex (BAX) Training Range Construction Project  
Wai'anae Uka Abupua'a, Wahiawa District, Island of O'ahu  
TMK: (1) 7-7-001**

Thank you for your continued requests for consultation regarding the aforementioned BAX project area. In two letters, dated September 18, 2006 and September 25, 2006, we received requests for consultation about appropriate mitigation and site protection measures for historically-significant resources inadvertently identified within the BAX project area during the final stages of clearing unexploded ordinance (UXO) from the BAX project area.

The State Historic Preservation Division (SHPD) has received several notifications of concern from the cultural monitors for the project about construction activities within the BAX project area. Concerns raised by the cultural monitors include (1) premature construction work prior to the establishment of site protection measures, (2) bulldozer damage to Hale'au'au Heiau, (3) inadequate access by cultural monitors to construction work, and (4) failure to adequately consult with concerned Hawaiian groups that have been actively involved in this Section 106 process from the start.

SHPD previously expressed concern over these alleged violations of the SBCT PA in a letter (LOG NO: 2006.2543, DOC NO: 0607CM26) dated July 24, 2006. Therefore, SHPD requested an immediate site inspection so that these allegations could be investigated. We also requested that all work immediately cease on this project until all relevant parties can be brought to the table for substantive discussions regarding appropriate corrective actions.

It is my understanding that damage to the Hale'au'au Heiau resulting from a bulldozer could not be confirmed during the site visit. Nonetheless, it was determined that the bulldozer did in fact breach the buffer zone. We are also aware that protective measures were not in place prior to the initiation of construction. Furthermore, we also understand that cultural monitors have been granted limited access to the project area which impedes their ability to identify potential sites of cultural significance.

**EXHIBIT 10**

Mr. Goo  
Page 2

To date, work has not stopped on the project, and all relevant parties have not been brought to the table for substantive discussions regarding appropriate corrective action. Therefore, due to violations of the SBCT PA which have occurred, SHPD wishes to inform the United States Army that unless all relevant parties come to the table by October 31, 2006 to address issues of concern, SHPD will propose that stipulation 6 E (Termination) of the SBCT PA be initiated.

Please contact either Ms. Melanie Chinen or Mr. Adam Johnson of my staff at (808) 692-8015 to schedule a meeting to discuss community concerns and appropriate correction action. In closing we again request that you immediately cease all work on the project until we are able to meet.

If we do not hear from you by the end of this month we will proceed with the provisions set forth in stipulation 6E.

Aloha,

Peter Young, Chair  
State Historic Preservation Officer
